.Net Developer   💼 Freelance   📅 Feb, 2020 - Dec, 2022

- Developing a comprehensive ERP system for hospitals management using the DevExpress framework and C#.
- Participated in planning of the methodologies of modules integration.
- Played a pivotal role in shaping the backend architecture and implementing key functionalities of a web application for a Charity in Saudi Arabia.
- Designing and developing APIs.
- Integrating databases.
- Implementing business logic.

PROJECTS

Campus Intelligent Surveillance System   📅 Apr, 2020 - Jun, 2021

Summary or impact about the project:
Increased face recognition accuracy by using multiple recognition algorithms and integrating them together.

Hospital Management System   📅 Feb, 2020 - May, 2022

Summary or impact about the project:
I have extensive experience in developing a comprehensive ERP system using the DevExpress framework and C#. This project aimed to streamline and optimize various aspects of hospital operations, ensuring smooth functioning Using .NET.

Queue Systems   📅 Jul, 2021 - Aug, 2021

Summary or impact about the project:
I worked on a highly professional project involving the development of a queue system for clinics, utilizing the powerful .NET framework and C# programming language. This project aimed to optimize the patient flow and enhan

Charity Web Application Using .Net   📅 May, 2022 - Nov, 2022

Summary or impact about the project:

I played a pivotal role in shaping the backend architecture and implementing key functionalities of the web application. This involved designing and developing APIs, integrating databases, implementing business logic, and ensuring smooth data flow.

SKILSS

Technical Skills

Python, .NET, C#, Devexpress, Odoo Development, HTML, CSS, SQL, XML

Soft Skills

Communication, Problem-solving, Teamwork, Analytical Thinking

Languages

Arabic, English

Additional Skills

.Net, Agile methodologies, Git, Postgresql, Data Structures & Algorithms, OOP

EDUCATION

B.Sc in Computer Science

📖 Nile University   📅 2017 - 2021

CERTIFICATION

1st place in Nile University's Undergraduate research forum
